FLORIDA'S SPACE COAST

Manufacturing Association of Florida's Space Coast

Promote. Advocate. Connect. Educate.

2017-2018 Report

An initiative of the Economic Development Commission of Florida's Space Coast

MASC Chair's Message

It has been my honor to step into the leadership role for the regional Manufacturers Association of Florida's Space Coast (MASC) this year. I was privileged to serve on the steering committee that developed the vision for MASC in 2014 and I am pleased to see the concepts discussed during those sessions in place now.

We remain aligned with our priority to promote manufacturing products, companies and careers. This year we emphasized the importance of telling the story of modern manufacturing with a goal of shifting perceptions and driving interest in manufacturing career paths. We introduced the "See Manufacturing Through New Eyes" campaign and enhanced our www.ManufacturingInBrevard.org website to further this message. And, we leveraged the national Manufacturing Month initiative with targeted outreach including a video of local MASC members sharing why they celebrate manufacturing.

Additionally, we have elevated our efforts to connect manufacturers to each other and resources as well as the goal to provide educational opportunities. This year MASC convened 4-member meetings and the MASC seminar series offered six topical business education opportunities for our members.

We also enhanced advocacy efforts through facility tours for elected leaders and briefings of state legislative staff members.

MASC is an initiative of the longstanding Economic Development Commission of Florida's Space Coast (EDC) Industry Council, building on the council's legacy as the regional core for manufacturing since the early 2000's. I look forward to working closely with manufacturers throughout the region through this resource in the coming year.

Sincerely,

*Julie Song, Chair - MASC Advisory Board / EDC Industry Council
Partner
DRB Packaging*

MASC ADVISORY BOARD – 2017/2018

Ken Brace, Rapid Prototyping Services

Carol Craig, Craig Technologies, Inc.

Jennifer Dickson, Merritt Island Boat Works

Bart Gaetjens, Florida Power & Light Company

Rick D. Horner, Lockheed Martin

Jason Jones, Sentry View Systems

Ken Lawrence, MACK Technologies

Jolee Martin, Multi Axis Manufacturing

Amar Patel, Brevard Achievement Center

Christopher Riley, Harris Corporation

Mark Schramek, Embraer Executive Aircraft, Inc.

Forrest Smalley, Florida City Gas

JT Theiler, Rockwell Collins

Julie K. Song, DRB Packaging

MASC FOUNDING MEMBERS

Berman Hopkins Wright & LaHam – Phil Hayes

Carr, Riggs and Ingram CPAs and Advisors – Debbie Goode

Florida Institute of Technology, CAMID – Robert Salonen

Lightle Beckner Robison, Inc. - Michael Moss

Lockheed Martin – Joe Mayer

DRB Packaging – Craig Day

FL Business & Manufacturing Solutions – Julie K. Song

MACK Technologies – Ken Lawrence

Rapid Prototyping – Ken Brace

Wells Fargo – Sandra Burge

MASC MISSION AND PROGRAM OF WORK

The Manufacturers Association of Florida's Space Coast (MASC) has been developed to serve as the succinct voice for Brevard County's robust and diverse manufacturing base through action-oriented efforts to:

- **Promote** regional manufacturing companies, products and careers
- **Advocate** for critical issues impacting the manufacturing sector
- **Connect** manufacturers to resources and opportunities
- **Educate** manufacturers, their incumbent workers and the talent of the future

MASC is an initiative of the longstanding Economic Development Commission of Florida's Space Coast (EDC) Industry Council, building on the council's legacy as the regional core for manufacturing.

Member benefits / program of work: MASC has been established to serve the needs of regional manufacturing companies. Membership is open to all eligible manufacturing companies on the Space Coast and Investors in the Economic Development Commission of Florida's Space Coast. Details on member benefits, membership structure, cost(s) and eligibility are further described at www.MASpaceCoast.com

The benefits of involvement are featured in the MASC program of work outlined below:

- **MASC Promotion**
 - Receive FREE promotion of your company and products through the Made In Brevard directory
 - Join the annual Manufacturing Day / Month celebration of modern manufacturing
 - Participate in the manufacturing image and attraction campaign to drive interest in manufacturing careers
- **MASC Advocacy**
 - Influence positive change in your sector by having your voice heard in Tallahassee and Washington D.C. to ensure business friendly policies persist
 - Engage in the MASC championship of strategic advocacy issues annually
 - Shape the conversation of what is important to manufacturers in our region
- **MASC Connection**
 - Plug into the NIST funded FloridaMakes network to access an array of resources
 - Network with fellow manufacturing members to bolster local procurement
 - Learn how to take part in existing manufacturing industry initiatives
- **MASC Education**
 - Improve processes through quarterly seminars and workshops focused on a variety of topics including government contracting, international trade and manufacturing process improvements
 - Learn how to enhance incumbent worker talent development through credentialing programs such as the nationally recognized Certified Production Technician (CPT) program
 - Assist in the growth of manufacturing talent for the region

Included herein is an overview of the action of MASC from October 1, 2017 – September 30, 2018

MASC – Promote

See manufacturing through new eyes

Image and Attraction Campaign

See Manufacturing Through New Eyes – this multi-media outreach campaign was rolled out in October 2017 telling the stories of those impacted by a career in manufacturing. The campaign overcomes negative perceptions about the industry **effectively meeting objections** with facts and examples from **authentic stories, from real people** working in manufacturing in Brevard. The campaign includes a targeted website

www.ManufacturingInBrevard.org which features short videos of campaign participants. Accompanying print ads, billboards and radio further promote these stories and drive interest in the sector. The image and attraction campaign is used to promote manufacturing careers and the entry level Certified Production Technician training program available to local citizens.

Manufacturing Month in Florida & Brevard – October 2017

Governor Rick Scott issued a proclamation recognizing the contributions of the manufacturing sector to Florida's economy in celebration of manufacturing month [see the proclamation](#). Additionally, Brevard County Commission Chairman Curt Smith issued a proclamation in support of manufacturing month for the County (pictured) and City of West Melbourne City Council member Andrea Young introduced a manufacturing month resolution for the City. Several MASC manufacturing members

hosted open houses and connected with schools to promote the benefits of manufacturing to our economy and the opportunities for pursuing careers. Manufacturing Month is part of a national grass roots effort which began in 2012. We look forward to continuing to grow the Space Coast effort alongside MASC member companies each October...and all year long!

(Pictured L-R: Janice Scholz, Brevard Public Schools, Elizabeth Huy, EDC; Tina Berger, CareerSource Brevard; Mike Ennis, Past MASC Chairman / Harris Corporation; Jennifer Sugarman, Cocoa Beach Regional Chamber of Commerce; Honorable Curt Smith, Brevard County Commissioner District IV; Vicki Northup, EDC; Patty Boatman, Eastern Florida State College)

5th Annual Made In Brevard Expo – May 3, 2018

The EDC's 5th Annual MADE IN BREVARD Expo was hosted on Thursday May 3. Free and open to the public, [the Expo showcased over 40 local companies and the products & designs that are MADE HERE on the Space Coast](#). Attendees witnessed the unveiling of a new security technology, robotics manufacturing, and more! The Expo also included the first MADE HERE speaker series, "Tech Talks" discussing local manufacturing companies and their innovations - [Take a walk around and check out the fascinating depth of Brevard's manufacturing](#).

Industry Award Recognitions

Recognizing the accolades of regional manufacturers makes a positive impact on how the manufacturing industry is perceived. We are pleased to congratulate MASC member companies who have been recognized over the past year.

EDC of Florida's Space Coast – 2018 Manufacturer of the Year Awards

New this year, the EDC and MASC recognized two categories for the annual manufacturer of the year awards – Large Manufacturer and Small manufacturer. Congratulations to

MASC manufacturing member Rockwell Collins for being awarded the 2018 Large Manufacturer of the Year (*pictured left, Mike King, Rockwell Collins*). Congratulations to MASC manufacturing member Matrix Composites for being awarded 2018 Small Manufacturer of the year (*picture right, Phil Hayes, EDC Chairman, Paul Oppenheim and Dave Nesbitt, Matrix Composites, and award sponsor Ken*

Brace, Rapid Prototyping) during the awards ceremony on May 3, 2018 following the Made In Brevard Expo.

2017 Florida Sterling Manufacturing Business Excellence Awards

Congratulations to Lockheed Martin Space Systems; Merritt Island Boatworks (Ocean Alexandar Yachts) and Mack Technologies for being selected as finalists for the [2018 Florida Sterling Manufacturing Business Excellence Awards!](#) The companies joined manufacturers from across the state on Friday, June 1st for the awards ceremony. Lockheed Martin Space is a Leadership Level Investor in the EDC and a Founding Member of MASC. Merritt Island Boat Works is a Corporate Level EDC Investor and Mack Technologies is a Founding Member of MASC.

Promote Manufacturing Careers

Aligned with national trends, in Brevard County less than 4% of existing workers in manufacturing are under the age of 25 demonstrating a need to place specific emphasis on a targeted effort toward a younger demographic. An October 2015 study by the Manufacturing Institute, in partnership with SkillsUSA and the Educational Research Center of America, found that 64 percent of (secondary) students identified personal experiences as having the greatest influence over their career decisions. As such, the implementation of this image and attraction effort includes secondary school student exposure to manufacturing career opportunities.

The EDC has developed a third-party partnership with Junior Achievement of the Space Coast (JASC) to implement a joint venture *Workforce Readiness and Job Shadow* program for 9th and 10th grade students in Brevard Public Schools. The seven-week *Workforce Readiness* module concludes with hands on *Job Shadow* and a student project which tells the story of modern manufacturing through a video presentation. The videos will be integrated into the campaign to further communicate the positive message to parents, teachers, students and the community at large. During the reporting period the EDC and JASC implemented this program with local manufacturers and local high schools.

On December 4, 2017 Cocoa Beach High School students participated in a *Job Shadow* program at Space Coast manufacturing company, Craig Technologies (*pictured above right*). Additionally, on December 7, 2017 Merritt Island High School students participated in a *Job Shadow* day at Brevard County aerospace company, United Launch Alliance. (*pictured left*.)

This effort introduces manufacturing careers through STEM education and connects students with a path toward direct employment and ongoing post-secondary credentialing and technical training.

MASC – Advocate

MASC facilitates a connection between lawmakers and regional industry. Educating our elected leaders on the manufacturing industry and the issues that impact the sector helps ensure a competitive business environment conducive to growing and thriving manufacturers.

MASC Manufacturing Champion Awards – 2018

The Manufacturing Association of Florida's Space Coast (MASC) recognized lawmakers for supporting manufacturing driven initiatives in the Florida Legislature. The awards were presented to state legislators during the 3rd Annual MASC State of Manufacturing event held on September 19, 2018 at the Eau Gallie High School Aviation Hangar in Melbourne. Senator Debbie Mayfield, Florida Senate - District 17 was honored along with Representative Tom Goodson, Florida House of Representatives - District 51.

(Pictured L-R: Phil Hayes – EDC Chairman; Senator Debbie Mayfield - Florida Senate; Representative Tom Goodson - Florida House of Representatives; Julie Song, MASC Chair)

Regional Manufacturers Associations (RMA) – Statewide Advocacy Trip

MASC joined the network of 14 regional manufacturers associations (RMA) in Tallahassee on Jan 31 – Feb 1 to discuss manufacturing with Florida Legislators. The two-day trip was coordinated through the First Coast Manufacturers Association and included a Capitol briefing, scheduled Legislative office visits and a reception with Legislators and staff. The collective RMA legislative priorities were discussed with each office.

(Pictured, Lt. Governor Carlos Lopez-Cantera with MASC representative – Jason Jones, Sentry View Systems and statewide RMAs)

Candidate Industry Roundtables:

The EDC Industry Council / MASC Advisory Board partnered with the EDC Aerospace, Aviation and National Security Council to host a series of roundtables with candidates running for statewide and national elected office. The roundtable discussions focused on the economic impact aerospace and manufacturing industries have in Brevard County and across the state. Industry leaders and candidates running for office discussed policies essential to remain competitive, and initiatives needed to maintain a thriving business climate.

Elected Leaders Manufacturing Tour Series

Connecting with local elected leaders is an important component of the MASC advocacy effort to ensure local leaders understand the positive impact manufacturers make on our economy. The EDC is actively inviting elected leaders who represent Brevard County to tour manufacturing facilities. This activity is being structured to occur on a quarterly basis throughout the next program year. During the current program year County Commission tours occurred for County Commissioners Curt Smith and Rita Pritchett and for State Senator Hukill's office and State Representative Fine's office.

*Sentry View Systems – 2/2018
County Commissioner*

*Matrix Composites – 2/2018
County Commissioner*

*Paragon Plastics – 2/2018
Senator Hukill's Office*

*United Space Coast Cable – 7/2018
Representative Fine's Office*

Legislative Staff Workforce Briefing:

On August 16 EDC / MASC hosted the state house and senate Brevard delegation legislative staff for a briefing on manufacturing workforce challenges. Discussion focused on the CPT training program, the See Manufacturing Through New Eyes outreach campaign and the #LiveBigSpaceCoast Talent Attraction campaign.

MASC – Connect

MASC Member Meetings

In addition to a robust workshop series focused on business improvement and targeted skill building, throughout the year MASC hosts a minimum of three (3) member meetings. The member meetings align with the MASC priorities and are designed to connect members to resources, opportunities and each other.

MASC Soft Skills in the Manufacturing Workplace – February 14

MASC hosted 50 manufacturers and community stakeholders for an interactive event focused on Soft Skills in the Manufacturing Workplace. Keynote presenter, Karen Gregory, President & CEO, HRSS Consulting Group, LLC led attendees through a series of simulations focused on team communication and CareerSource Brevard introduced a new soft skills training pilot program to assist manufacturers. Participants commented that the program was impactful and eye opening.

MASC Made Here Tech Talks – May 3

During the 5th Annual Made In Brevard Expo MASC hosted a new MADE HERE Tech Talk speaker series featuring short presentations from 15 companies focused consumer products, workforce, new space technologies and emerging innovations. The event was free and open to the public. Expo attendees were able to stop in to listen to presentations as they explored the exhibition hall. Each presentation lasted 5-7 minutes in duration. The Tech Talk series was moderated by Bob Gabordi, Executive Editor of FLORIDA TODAY.

MASC GET Global Space Coast – June 13

Over 60 local manufacturers and community stakeholders attended the GET Global Space Coast event at Exploration Tower at Port Canaveral. The event focused on how to do business with Canada and included an introduction to many trade resources available to Space Coast companies including the Foreign Trade Zone 136, Enterprise Florida's International Trade programs and SBA export financing. Plus, attendees heard a special secrets of success presentation by SBA Small Business Exporter of the Year - [SeaDek Marine](#)

[Nonskid](#).

MASC State of Manufacturing Event – September 19

MASC's 3rd Annual State of Manufacturing event was held September 19 at the Eau Gallie High School Aviation Hangar. Keynote presenter, James Heckman, Economist, Florida Department of Economic Opportunity, provided an update on the manufacturing sector in Brevard. Senator Debbie Mayfield and Representative Tom Goodson were both honored as 2018 Manufacturing Champions for their work in support of the sector in the Florida legislature. The event concluded with a behind the scenes tour of the brand new Eau Gallie High School Aviation Hangar.

MASC Newsletter

The MASC Newsletter is distributed every other month to MASC members. The newsletter includes information about resources, opportunities and topical events. Additionally, the newsletter includes a section to solicit local manufacturing capabilities. Each bi-monthly edition includes targeted inquiries for capabilities, products or services. Inquiries may be sent to MASC@SpaceCoastEDC.org to be included.

MASC – Educate

The **MASC Seminar Series** offers a platform for manufacturers to improve processes through regularly scheduled seminars focused on an array of topics including government contracting, international trade and manufacturing process improvements. The following is a recap of the seminars held during the fiscal year.

	<p>MASC – Export Assistance Center Meetings – October 9 MASC hosted one-on-one meetings between MASC member companies and the Central Florida U.S. Export Assistance Center to discuss export assistance services available through the U.S. Department of Commerce International Trade Administration. Participants learned about available programs to support their individual company priorities and needs during the sessions.</p>
	<p>MASC Seminar – Cybersecurity DoD Compliance Briefing – November 29 Space Coast manufacturing & technology companies received a briefing on the DoD cybersecurity requirement through NIST 800-171 on November 29. The EDC and MASC partnered with BSBAC & SBDC to host this event. Expert presenters included Artemis IT, CVG Strategy and IAP Worldwide Services. <i>(Pictured, Michael Fox, Chief Information Security Officer for IAP Worldwide Services)</i></p>
	<p>MASC Seminar – CPT Manufacturing Training Roundtable – December 4 MASC Chairman, Michael Ennis, explained why credentials matter during an in-depth discussion of the MSSC Certified Production Technician (CPT) program at the CPT Roundtable convened by MASC on December 4 at Eastern Florida State College Palm Bay Campus. Following the Roundtable, EFSC hosted a tour of the Palm Bay manufacturing training facilities. <i>(Pictured, Michael Ennis, MASC Chairman)</i></p>
	<p>MASC Seminar– Federal Tax Legislation Briefing – February 8 MASC members attended a session led by MASC Founding Member, Carr Riggs and Ingram, focused on how the federal tax legislation impacts manufacturers. The session highlighted what to expect from the tax reform including comparisons from current to new rates and more. <i>(Pictured, Barbara Oswald, CRI)</i></p>
	<p>MASC Seminar - CPT Training Roundtable– April 24 MASC hosted 35 manufacturers and community stakeholders for an interactive spring 2018 CPT Roundtable. Ms. Mary McCormick, lead instructor for the CPT training program at Bayside High School, and Mr. Ken Lawrence, Floor Support Quality Engineer for Mack Technologies, presented the MSSC/CPT program from both the training side and the recruiting side. Plus, attendees learned about next level training – specifically the IPC J-Std Soldering-001 program.</p>
	<p>MASC Seminar - MFG Innovation + the R&D Tax Credit – August 29 A highly engaged audience of 30 manufacturers and community leaders turned out to learn how to leverage the R&D Tax Credit program to enhance innovation efforts locally. The seminar was led by MASC Founding Member Berman Hopkins Wright & LaHam, CPA's and Associates and hosted at Mack Technologies in Melbourne.</p>

MASC Education

In addition to an active series of seminars to support manufacturers, developing talent for both incumbent workers and individuals interested in entering the field is important. MASC has been actively involved in promoting and supporting credentialing programs, particularly the Certified Production Technician program.

Since MASC was launched the EDC and MASC have worked closely with many partners to extend training for the CPT program through Eastern Florida State College to local citizens. Below is a recap of the program year activity.

CPT Program Year 2017 - 2018

4 classes

94 trainees

20 career exposure tours hosted by MASC members

4 work readiness / interview workshops

4 exclusive CPT job Fairs

- Direct connections: 95% of CPT course completers interviewed by one or more manufacturer.
- Career placement: 80% of CPT certified trainees placed in manufacturing jobs.

IPC J-STD-001 – June 18, 2018 and September 10, 2018

During the program year the EDC worked with Eastern Florida State College and CareerSource Brevard to promote and administer the IPC J-STD-001 course. This Hands-on soldering course meets the requirements for Soldered Electrical and Electronic Assemblies Training and Certification. The EDC's TAP program provided scholarships for students to participate in two classes. A total of 20 trainees went through the program during the program year. Training is administered Monday through Thursday (6 p.m. to 10 p.m.) at Eastern Florida State College, Cocoa Campus.

- IPC J-STD-001 is the preeminent authority for electronics assembly worldwide.
- 80 hours of training including 40 hours of hands-on lab time
- Fundamentals taught include:
 - Through-Hole soldering
 - Surface Mount soldering and
 - Wires and Terminals
